WHAT ARE THE DIFFERENT STYLES OF EXTENSIONS?

Classic Individual Lash Extensions

If you are looking for longer, thicker and fuller lashes with a natural looking effect, Classic Individual lash extensions may be for you. The amount of Classic Eyelash extensions you have depend upon how many natural lashes you have, if you have 40 natural lashes per eye, 40 individual eyelash extensions will be applied. One false lash per each natural lash.

Russian Volume Lash Extensions

If you are looking for thick glamorous lashes with a great noticeable effect, Russian Volume lash extensions is the lash set for you. Russian lashes give clients a full, high impact look by applying multiple super fine eyelash extensions to one single natural eyelash in a fan like manner. Ideal for clients who want a more glamorous look.

We offer a range of different thicknesses for Russian Volume lash extensions to suit the client's individual needs, which varies from 3D, 6D, 9D. (The number of fine eyelashes per fan).

Hybrid Lash Extensions

Hybrid Lash Extensions is a combination of two different lash techniques rolled into one. This combination is a mixture of both Classic Individual and Russian Volume lash extensions. This is the most popular choice in the clinic as by choosing Hybrid lash extensions you can experience the best of both worlds by combining Classic lashes to build structure and Russian Volume lashes to add thickness. These are perfect for clients who desire a little more volume but with a little less drama and especially ideal for clients who suffer with sparse lashes.

Please allow approximately 1 hr 30 – 2 hrs for your appointment, depending on the lash treatment you choose.

Lash Extensions can last up to 4 weeks however, if a client requires upkeep and to maintain their lash extensions, an infill appointment is required after no later than 2-3 weeks.

LVL Lift at JR Body & Aesthetics

Lash Lifting is a fabulous alternative to lash extensions, designed to enhance your natural eyelashes creating a darker, thicker and longer look.

LVL (Length, Volume and Lift) is also known as a lash perm however, unlike a traditional lash perm, uses a setting serum to straighten your natural lashes at the root to create a lift, giving you that natural yet much fuller and more lengthened look. You may also choose an eyelash tint as an added bonus to create the appearance of darker lashes, giving you a mascara-style effect, so your lashes are perfect from the moment you wake up. No extensions, no adhesive and no need for mascara, the completed look.

Please allow approximately 1 hour. Results can last up to 6 weeks.
